Creative Developer & Digital Experience Designer

Toronto, ON, Canada

marinomadison@gmail.com

linkedin.com/in/-madison-marino

Web and software development graduate with experience in freelance development, technical support, program coordination, marketing, and live educational programming. Builds responsive websites and browser-based projects, and contributes to collaborative creative-technology work.

SELECTED WORK

Lightbridge

Project contributor

Live-visual desktop app

- Contributed to a desktop app for creating live visuals that respond to audio and performance controls.

Butterfly Confessions

Project contributor

Interactive installation

- Contributed to a hand-cranked installation combining recorded testimony, mechanical movement, and light.

HandiWork

MediaPipe · Web Audio · JavaScript

Gesture-controlled browser experiment

- Designed and built a browser experiment where hand movement controls visuals and sound.

Maison Vél

Art direction · UX · Front-end

Fictional fragrance website concept

- Designed and built a concept website with product imagery, an interactive collection, and an appointment form.

EXPERIENCE

Freelance Web Developer

Mar 2024—Present

Independent

- Build and update responsive websites and small software projects, from initial requirements through testing and delivery.
- Work primarily with HTML, CSS, JavaScript, React, and Firebase, choosing tools based on the needs of each project.
- Communicate progress, document decisions, and organize deliverables for technical and non-technical collaborators.

PORTFOLIO

madisonmarino.com ↗

EDUCATION

Diploma, Web & Software Development

BrainStation

Honours Bachelor of Music, Voice Performance

Wilfrid Laurier University

Adult Programs Coordinator

May—Jul 2025

Prosserman JCC & Schwartz/Reisman Centre

- Coordinated planning, scheduling, registration, policy communication, and participant support for adult programs at two community centres.
- Created and maintained a shared participant database containing hundreds of records for tracking and reporting.
- Prepared promotional materials and operational timelines, and coordinated information between teams as priorities changed.

Technical & Marketing Coordinator

Sep 2022—Nov 2024

Hate Ends Now

- Managed technical setups and tour logistics for an education exhibit that travelled to dozens of North American cities.
- Delivered educational programming to more than 250 people per day and adapted the setup for different venues.
- Supported marketing, social media, sponsorship, donor communication, budgets, and tour documentation.

Software Developer Teaching Assistant

Mar—Jul 2024

BrainStation

- Reviewed and helped debug student work in JavaScript, React, Node, databases, APIs, and responsive front-end development.
- Led office hours and one-to-one support for students with different levels of experience.
- Tracked progress and recurring problems, shared curriculum feedback, and communicated between students and instructors.

Certificate, Digital Marketing

Google
